Corner Plaza de Castilla with C / de Mateo Inurria.

**For other dates please contact us.**

**BRIEF DESCRIPTION OF THE VISIT:****BRIEF DESCRIPTION OF THE VISIT:**

With the mountain peaks above 2,500 m. altitude make this part of the Central Mountain Range one of the most representative. La Laguna Grande which is located in the heart of Glacier Cirque of Gredos is of unparalleled beauty.

On the lower slopes there are Pine and Oak trees. Then, as you reach altitude, appears a broom area that gives way to grasslands and at the end big peaks. Summits are an impressive mass of granite crags that are home to such interesting species as the Blue Rock and Rock Thrush, Bluethroat and Ortolan Bunting.

We will also make a walk into the forest to find species more typical of this environment and even, hopefully, to observe Red-backed Shrike.

We must not forget the possibility of watching Spanish Ibex that also coexist in this environment, neither of Iberian Emerald Lizard or Iberian Rock Lizard.
