Then we will go in cable car to the alpine floor and walk close by the Hotel in search of Alpine Accentors, Snowfinches, Red-billed and Yellow-billed Choughs.

Next day we will go walking towards Peña Vieja in order to spot Wallcreeper and in its way through alpine pasture we will watch Water Pipit and Northern Wheatear. Also on the way it is not difficult to observe Rock Thrushes.

The last day we will walk through the Timber line to locate the European Honey-buzzard, Tree Pipit, Red-backed Shrikes, Cirl Buntings and Hopefully the scarce Bluethroat and Black Woodpecker.

During the whole trip we will enjoy observing a great variety of Flowers and Butterflies.

During the night of the two days we stay at the Hotel Áliva and if time permits, we will photograph the Milky Way that is why these dates have been selected to make it coincide with the New Moon that there is less light pollution from the Moon. In a few places you can see night skies like these.
